

Hamble Yacht Services Base Guide

6.5m Rib 'Pure Petrol' (Drystack pontoon)

Finding Hamble Yacht Services

Hamble Yacht Services is a professional full service yacht and motor boat yard, situated on the River Hamble right in the heart of the South Coast's premier boating location. Hamble village is a few minutes' walk away and offers cafes, pubs, restaurants and basic shops.

The address is HYS Group, Port Hamble, Hamble, Hampshire, SO31 4NN

Telephone +44 (0) 2380 201501

Directions by car: Leave the M27 at exit junction 8, and follow the sign to Hamble (A3024), 2nd exit at the first roundabout. At the next roundabout, next to Tesco, take the second exit, (B3397) signposted to Hamble. Carry straight on along Hamble lane for about 3 miles until you reach the heart of the village. Follow the road through the top of the village round to the left and you will find Port Hamble Marina clearly signposted after about 100 metres on the right hand side. Drive down the hill, past the marina on the right and to the barrier at the end. The security guard will let you through the barriers.

Access / Car Parking and Obtaining / Returning Boat Keys

Advise the HYS gatehouse attendant you are with Pure Latitude / the boat name and you will gain access to the yard (on busy weekends you may be issued with a temporary parking permit). Park in the marked parking bays in the boat yard or in the carpark which is accessed on the right after the dry stack.

Collect and sign for the boat keys (ask by boat name and give your name) at the gatehouse, by the entrance barrier. Access is available 24 hours a day.

Remember to return the keys to the gatehouse before leaving.

Finding your boat

Pure Petrol will be berthed in the area to the right hand side of the lifting bay. As the boat is dry stacked when not in use this is a temporary berth so you may not find the boat in exactly the same berth every time, but it will be in this area. At busy times it is necessary to raft.

If Pure Petrol is not in the water then check with HYS marina office who are open 07:00 to 19:00 during summer (Office opposite dry stack). If they have omitted to launch, they will do so ASAP. Please notify Pure Latitude should this ever occur.

There are no reciprocal berthing agreements with other marinas you may visit.

Pure Latitude Office

The PL headquarters office is in Hamble at Unit 11, Hamble Yacht Services, next to Jenny's Café and upstairs. The office is open weekdays and occasional weekends. There is no requirement to visit the office but please call in if you have any questions or need any assistance or just drop by to say hello.

Showers and Toilets

There is a modern shower block. It is open 24 hours a day, seven days a week.

Refuse and Recycling

Refuse and recycling bins are available next to Jenny's Café. Please use these for disposal of domestic refuse and do not leave it on the pontoons.

Provisioning

There is a large Tesco just after the M27 junction 8 exit.

There is a small Co-operative on the High Street in Hamble Village.

Onsite food and drink

Jenny's Café sells hot and cold take away food, and has a seating area outside.

The restaurant/bar in Port Hamble Marina (Next door) is Banana Wharf

Local food and drink

There are pubs and restaurants located a short walk away in the village. We recommend the following pubs, all of which serve food: The White Hart; King and Queen; The Bugle and these restaurants: River Rat; Dolce Vita; Banana Wharf

Cash Point

There is a cash point at the Co-operative in Hamble Village.

Chandlery

There is a Force 4 chandlery opposite the Port Hamble Marina office for clothing, spares and bottled gas.

Fuel Pontoon

The fuel berth is located at the end of Pontoon B in Port Hamble and sells both petrol and diesel 7 days a week. Standard opening times are 9.00am – 5.00pm.

In July and August, opening times are extended on Fridays and Saturdays to 7.00pm.

You must arrive at the fuel berth 30 minutes before closing to allow time to refuel

VHF Radio Channels

Hamble Yacht Services uses Channel 80

Hamble Harbour Radio - All vessels should monitor VHF Channel 68 when underway in the harbour

Designated Boat Usage Area

Charts are provided for the Solent, including Chichester. Please provide your own charts for areas outside this and advise Pure Latitude of your passage plan in advance.

Mooring guidance

Tidal conditions at the mooring require competent boat handling skills. It runs at maximum rate in ebb, from HW + 4 to LW.

If leaving a downstream berth on a fast ebb tide, take great care not to be swept across the fairway.

Anticipate the need for significant compensation (ferry glide) when motoring cross tide in or out.

Returning to downstream berths in a flood tide is also challenging.
