

Port Hamble Marina Guide

Finding the marina

Port Hamble Marina is situated on the River Hamble right in the heart of the South Coast's premier boating location. Hamble village is a few minutes' walk from the marina and offers cafes, pubs, restaurants and basic shops.

The marina address is Satchell Lane, Hamble, Southampton, Hampshire, SO31 4QD

Marina main telephone 023 8045 2741 Mobile duty number 07831 452446

Directions by car

Leave the M27 at exit junction 8, and follow the sign to Hamble (A3024), 2nd exit at the first roundabout. At the next roundabout, next to Tesco, take the second exit, (B3397) signposted to Hamble. Carry straight on along Hamble lane for about 3 miles until you reach the heart of the village. Follow the road through the top of the village round to the left and you will find Port Hamble Marina clearly signposted after about 100 metres on the right hand side. Drive down the hill into the marina.

Car Parking and Obtaining / Returning Boat Keys

Park or stop near to the Port Hamble marina office, which is located above Banana Wharf restaurant and accessed by the external stairs. Collect and sign for the relevant boat keys (ask by boat name and give your name), car park entry card (which is on the key ring), a temporary car park display pass and ask for the current marina toilet code and boat berth number.

The office is open 24 hours a day, but off peak there is only one staff member. When he/she does pontoon walks, the office is locked so you have to call their mobile (07831 452446 and also displayed on the office door) and they will return to the office.

There is one pass per boat plus some spares which are allocated on a first come first served basis to any member who requires parking for two cars. Otherwise there are the public parking spaces in the marina (pay and display) or the approach roads and the village car park, but all tend to be congested at the weekend. You can use either of the car parks each side of the marina office but the far one (North) is the closest to the majority of Pure Latitude boats. Use the entry card to open the barrier to the car park and remember to display your car park pass in your windscreen. You do not need the entry card to exit the car park – the barrier (at the other end of the car park) opens automatically, so you can hand your keys back to the marina office before you leave.

The keys must be returned to the office when the yacht is not being used and when your period of charter has ended. They can be posted through the door if the office is locked.

Finding your boat

The Pure Latitude boats are mostly on F pontoon and access is not gated. Lizzie is the exception on E pontoon so always check location when you collect keys. Know your boat name! Trolleys are available at the top of most pontoons.

Pure Latitude Office

The PL headquarters office is in Hamble at Unit 11, Hamble Yacht Services (at the far end of the marina road beyond the barrier), next to Jenny’s cafe and upstairs. The office is open weekdays and occasional weekends. There is no requirement to visit the office but please call in if you have any questions or need any assistance or just drop by to say hello.

MDL Club Outlook

MDL allows overnight berths and short stays free at other MDL marinas. Booking in advance recommended

WIFI

WIFI service is available in the marina. Choose the strongest signal named MDL WIFI spark. Access is limited to 5 devices per username and shared across the fleet.

Username: PHG0055 PHG0058 PHG0061
Password: SO314NN

Showers and Toilets

There is an excellent shower block with plenty of toilets and shower cubicles situated below the Marina Office. It is open 24 hours a day, seven days a week. Access is with the fob on the boats keyring or security code obtained from the marina office and it changes regularly. Hairdryers are available.

Refuse and Recycling

Refuse and recycling bins are available in both car parks, adjacent to the pontoon entrances. Please use these for disposal of domestic refuse and do not leave it on the pontoons.

Provisioning

There is a large Tesco just after the M27 junction 8 exit.
There is a small Co-operative on the High Street in Hamble Village.

Onsite food and drink

Jenny's Cafe sells hot and cold take away food, and has a seating area outside.

The restaurant/bar in the Marina is Banana Wharf

Local food and drink

There are pubs and restaurants located a short walk away in the village. We recommend the following pubs, all of which serve food: The White Hart; King and Queen; The Bugle and these restaurants: River Rat; Dolce Vita; Banana Wharf

Cash Point

There is a cash point at the Co-operative in Hamble Village.

Chandlery

There is a Force 4 chandlery opposite the marina office for clothing, spares and bottled gas.

Fuel Pontoon

The fuel berth is located at the end of Pontoon B and sells both petrol and diesel 7 days a week.

Standard opening times are 9am – 5pm

May to September, opening times are extended on Fridays, Saturdays and Sunday to 7pm

You must arrive at the fuel berth 30 minutes before closing to allow time to refuel

VHF Radio Channels

Port Hamble Marina uses channel 80

Hamble Harbour Radio - All vessels should monitor VHF Channel 68 when underway in the harbour.

Designated Sail Area

Charts are provided for the Solent, including Chichester. Please provide your own charts for areas outside this, and advise Pure Latitude of your passage plan in advance.

Mooring guidance

Tidal conditions at the mooring require competent boat handling skills. It runs at maximum rate in ebb, from HW + 4 to LW so planning your departure and return times, at least until you are familiar with the boat, is highly recommended.

If leaving a downstream berth on a fast ebb tide, take great care not to be swept across the fairway. Anticipate the need for significant compensation (ferry glide) when motoring cross tide in or out of the marina.

Returning to downstream berths in a flood tide is also challenging, so again, avoid until you are familiar.

Please call the marina for an alternative berth (sometimes just for an hour while you tidy up and wait for the tide to slow) or assistance if in any doubt about your ability to moor the boat. They are very used to helping out and it's much safer to move the boat later than risk damage.
